With your group members, read the list of exports and imports for your entrepot. **Notice that some items are in bold** which indicates they were important. Decide what goods you will make for export. Try to have a wide variety of items from those indicated.

When you trade, it is important to **import those items which are underlined** in order to be most successful.

EXPORTS - List the resources you have made to sell:

What form will they take? What will you make?

**Extra credit:** Read the *Periplus* account for advice on sailing conditions and trade. What additional information did you find?
